RESPONSE TO RESTRICTION REQUIREMENT

In the Office Action dated January 17, 2006, setting a 1-month shortened statutory period for a reply ending on February 17, 2006, the pending Claims 1-11 were restricted as follows:

Species I: Claims 1; 9 drawn to a method of forming a semiconductor layer;
and

Species II: Claims 1; 8 drawn to a method of forming a metal film

Applicant hereby provisionally elects Species I drawn to forming a semiconductor layer as exemplified by Claims 1 and 9. Applicant reserves the right to present the non-elected in a divisional application.

Notwithstanding the foregoing election, the Applicant respectfully disagrees with the restriction requirement.

Application Serial No. 10/714,226
Reply to Office Action of January 17, 2006

PATENT
Docket: CU-3454

On its face, the Office Action admits that claim 1 is generic to both species.

According to MPEP §803.01:

"There are two criteria for a proper requirement for restriction between patentably distinct invention:

- (A) The inventions must be **independent** or **distinct** as claimed; and
- (B) There must be a **serious burden** on the Examiner if restriction is required."

The Office Action does not clearly set forth the reasons how the two groups of claims are considered to be two distinctly separate inventions by way of "reasons and/or examples," or "the applicable criteria for distinctness," or "appropriate explanation of separate classification, separate status in the art, or a different field of search as defined in MPEP § 808.02."

It is also respectfully submitted that no satisfactory explanation for the restriction requirement is provided in the Office Action.

Applicants respectfully request a specific showing of how the serious burden can be put on the Examiner to search and examine the two sets of the claims, both relating to a method of forming a semiconductor and a method of forming a metal film. Accordingly, withdrawal of the restriction requirement is respectfully requested, but the election of species 1 with traverse is confirmed.

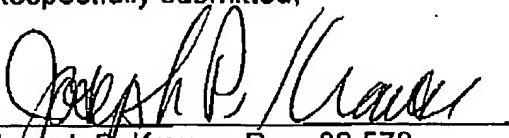

This response is considered to be responsive to all points raised in the Office Action. Should the Examiner have any remaining questions or concerns, the Examiner is encouraged to contact the undersigned attorney by telephone to expeditiously resolve such concerns.
